The screenshot shows the O'Reilly account creation interface. At the top is a red header with the O'Reilly logo. Below it, the word "Welcome!" is centered. A paragraph of text explains that users can get access to O'Reilly's online learning platform by filling out the form and clicking "Set Up My Account". The form consists of three input fields: a first name field containing "Si", a last name field containing "J", and a password field with masked characters ".....". Below the password field is a yellow button labeled "SET UP MY ACCOUNT". Underneath the button, a note states that if registration fails or there are questions, users should contact Customer Support. At the bottom left, there are links for "Support", "Get the App", and "Contact Us", followed by a copyright notice for 2020 O'Reilly Media, Inc. and links to "Terms of Service", "Membership Agreement", and "Privacy Policy". A small grey button with an upward arrow is located in the bottom right corner of the form area.

3. 다양한 방법으로 콘텐츠 탐색

1) O'Reilly Answers를 활용

We'll scan thousands of titles to answer your tech question.

Here are some examples of what you can ask

How do I build machine learning code infrastructure?

How do I implement notification pattern in C#?

How do I upload a file to a s3 bucket using a REST interface and API gateway?

How can I test code written in serverless on the local machine?

How can I deploy machine learning models?

How do I integrate Lambda with an API gateway?

이용자는 O'Reilly에서 미리 제공하는 질문을 통해 검색하거나 직접 질문을 입력할 수 있습니다.

 BOOK

I. M. Wright's "Hard Code"

Eric Brechner

- **Myth #1: Agile = eXtreme Programming (pair programming, Scrum, Test-Driven Development, user stories, or some other Agile method).** Agile methods are actually a collection of software development practices that share a common set of defining principles but are otherwise unrelated and at times contradictory. You can learn more about what Agile really is from the Agile Alliance.
- **Myth #2: Agile methods can't work for large groups.** This statement is absurd. Agile is a collection of disparate methods. Some of those methods won't work for large groups, some will, and some can if you get creative. You have to study the specific method in question before jumping to inane conclusions.
- **Myth #3: Agile methods can work for large groups.** The Agile philosophy values "customer collaboration over contract negotiation" and "responding to change over following a plan." Customer collaboration is tough with over 100 million customers. Contract negotiation is essential to manage cross-team

7h 52m

Start

The design marketplace has never been more competitive, or demanded more from emerging talent. To succeed, you must navigate the transition from learner to professional with purpose and precision. In **Stand Out: Building Your Design Portfolio**, Denise Anderson offers a hands-on, three-step, full-color action plan for establishing your unique brand, crafting a killer portfolio, tailoring and delivering your message, getting your perfect design job, and excelling once you're hired.

In this superbly organized and beautifully designed book, Anderson distills 20+ years of experience as a graphic designer, entrepreneur, instructor, and mentor, offering you powerful insights and easy-to-use tools for successfully launching your career. Whether you're in graphic design, advertising design, interactive or web design, fashion, or any other design field, Anderson will help you identify what makes you unique, and use it powerfully differentiate yourself from everyone else. Stand Out's step-by-step approach, hands-on work exercises, and short, easy-to-absorb chapters

In today's turbulent business environment, millions of people are seeking to strengthen their personal brands, and demonstrate far greater value to potential customers and employers. Many of them are seeking to rebrand themselves as they move towards entirely new jobs and careers. Fortunately, social media offers powerful new tools for building personal brands, strengthening business and personal relationships, and showing how you can solve the tough problems that keep customers and potential employers awake at night. A series of videos about Branding Yourself shows how to use them to build a personal brand that connects you to unprecedented new opportunities.

도서 자료 예시

Who is this book for?

If you can answer “yes” to both of these:

1. Do you want to learn about the **world’s most popular version control system**?
2. Do you prefer **stimulating dinner-party conversation** to **dry, dull, academic lecture**?

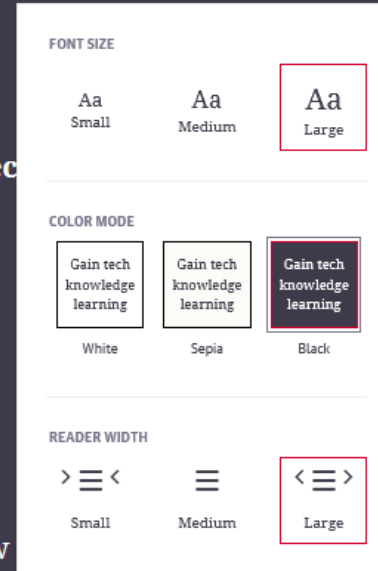

This book is for you.

Who should probably back away from this book?

If you can answer “yes” to any of these:

1. Are you completely new to computers?
(You don’t need to be advanced, but you should understand folders and files, how to use a command prompt, and how to use a simple text editor.)
2. Are you a version control system maestro looking for a **reference book**?
3. Are you **afraid to try something new**? Would you rather have a root canal than mix stripes with plaid? Do you believe that a technical book can’t be serious if it uses mouth-watering menu items to explain branching?

This book is **not** for you.

이용자는 본인의 기호에 맞게 폰트 크기, 배경 화면 색, 여백 너비 등을 조정할 수 있습니다.

3) Learning Paths 활용하여 콘텐츠 찾기

The screenshot shows the O'Reilly Learning Paths search interface. A search bar at the top contains the word 'Branding'. Below it, the results are displayed for '1 - 10 of 88 search results for "Branding"'. The 'Learning Paths' tab is selected. The first result is 'Learning Path: Giving Effective Presentations' by Curtis Newbold, published by O'Reilly Media, Inc. in November 2019. The second result is 'Learning Path: Designing Basic Web Interfaces' by Camryn Williams, Cassidy Williams, and Ben Henick, published by O'Reilly Media, Inc. in January 2018.

PUBLICATION DATE:
November 2019

For any business, enterprise, or organization, no matter what the industry is or where its based, there is one constant that rings true for them all: one of the most effective ways to communicate ideas and information is via a presentation. For some, giving a presentation before audiences that can include clients, peers, managers, or executives, it's as natural to do as drinking a glass of water. For others, it can be a less-than-pleasurable experience and can even affect your trajectory within your company. So being able to comfortably get up and captivate an audience is an important arrow to have in your quiver.

주제분야 전문가들이 추천한 콘텐츠를 바탕으로 체계적인 학습을 할 수 있도록 제공합니다.

3) Learning Paths 활용하여 콘텐츠 찾기

The screenshot displays the ProQuest Learning Path interface for 'Giving Effective Presentations'. The main video player shows a man speaking, with the Korean subtitle '강력한 프레젠테이션.' (Strong presentation.) at the bottom. The video progress is at 00:12 / 02:49. To the right, a sidebar lists the path's contents: Introduction (2m 49s), Module 1 | Preparation Prowess: Becoming an A.C.E. Before You Begin (1m 55s), and its sub-topics: Module 1 Overview (1m 55s), Be Aware: Study Your Audience, Scope Out the Scenery, Shake Their Hands (2m 2s), Be Confident: Know More than You Need, Stay in Control, Combat Your Fears (5m 6s), Be Engaging: Think Like an Artist, Tighten Your Topic, Stick to the Plan (4m 17s), Bookends: Hook and Close (10m 2s), and Module 2 (1m 3s). A red dashed box highlights the 'Be Confident' sub-topic, with a red arrow pointing to a callout box on the right. This callout box provides a detailed view of the 'Be Confident' sub-topic, showing its title and duration (5m 6s). At the bottom right, a dark grey box contains text in Korean explaining how to use the path's content to create a personal playlist.
